## Further important information

Please be aware that we need your valid press card at the accreditation. Accreditation applications without a valid press card cannot be accepted. We kindly ask free journalists and photographers to bring an additional acceptance of order from their editorial department. Editorial departments working online also need to bring a confirmation according to FIS-appointments. This is the only way we can guarantee efficient, smooth press work for all media representatives and ideal working conditions.

Important information for photographers: The use of a flash while taking pictures is **NOT** permitted during any practicing or during the competition. This applies to the overall jumping area as well as the area for taking photos at the outrun. Stairs at the jumping hill are exclusively available for professional photographers, representatives of print media and representatives of regional media. We appreciate your understanding.
